Purpose

Eastern Long Island Hospital's Health Needs Assessment (CHNA) highlights the health needs and wellbeing of residents within the North Fork and Shelter Island communities. As part of the new requirements for not-for-profit hospitals, every facility is required to conduct a Community Health Needs Assessment every three years and put together a plan of action to meet the community needs that the assessment identifies.

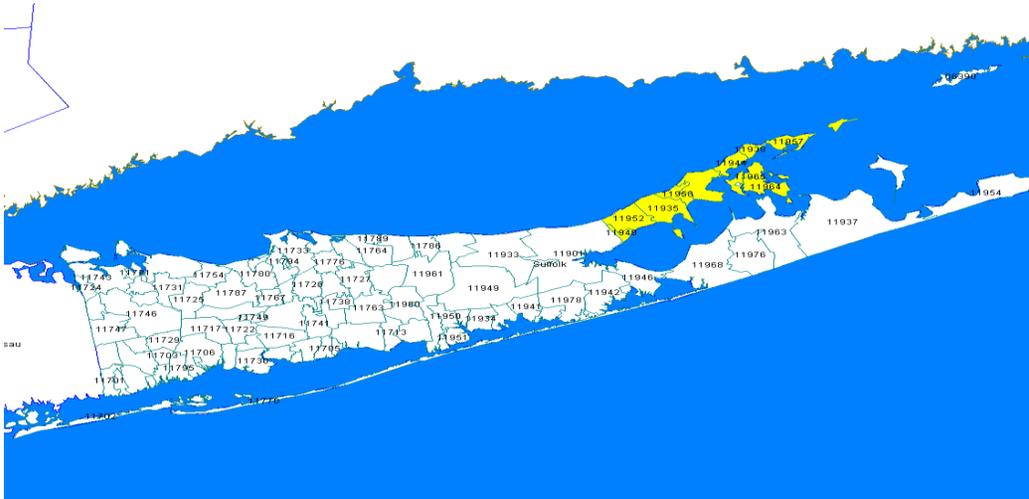

While every community has different health care needs, the 2016 findings from a community-wide survey conducted by Eastern Long Island Hospital (ELIH) in collaboration with Long Island Health Collaborative (LIHC) resulted in chronic disease health concerns in the following areas:

- Drug and Alcohol Abuse
- Cancer
- Heart Disease and Stroke
- Women's Health and Wellness
- Obesity/Weight-loss Issues

Goal

The goal of the assessment is to improve the health of the community as reflected in Eastern Long Island Hospital's mission and vision. ELIH will use and analyze the results of the health needs assessment for strategic decision-making purposes with the intention of addressing the most pressing health issues and current trends in the communities we serve.

Summary/Conclusion:

Eastern Long Island Hospital will continue to maintain engagement with community partners. As strategies are implemented, progress will be measured on an ongoing basis. Baseline data from the Long Island Community Member Survey will allow for strategic decision making based upon the effectiveness of strategies and improvements in outcomes. Strategic direction and project oversight will be guided by ELIH and the Suffolk Care Collaborative.

Dissemination and Transparency

Health Communication Strategies and Transparency are two key roles of the Population Health Improvement Program. Eastern Long Island Hospital (ELIH) together with the Long Island Health Collaborative (LIHC) will continue to engage consumers and provide transparency in population health initiatives and data analysis efforts through their websites. Working documents developed by ELIH and the full community service plan and CHNA are available to the public and are posted on the ELIH website at <http://www.elih.org>. The Suffolk County Executive Summary will be publicly available through the consumer facing portion of the Long Island Health Collaborative website at: <http://www.lihealthcollab.org>.
