Welcome & Introductions
J. Logan, Senior Director, Communications & Population Health welcomes committee members to the November LIPHIP meeting.
In partnership with Society of St. Vincent de Paul, the Long Island Health Collaborative held a warm clothing drive during the November meeting. S. Ravenhall thanks members who donated to the event.

Pascale Fils-Aime was introduced as the PHIP Public Health Intern. Pascale is a dual MPH-MBA student at Stony Brook University referred by Lisa Benz-Scott, Director of Graduate Program in Public Health at Stony Brook University.

| Workgroup Update | The **Public Education, Outreach & Community Engagement** workgroup, chaired by Chris Hendriks met on 11/18, just prior to the start of the full PHIP Collaborative meeting. During this meeting sub-workgroup members:
| Public Education, Outreach & Community Engagement | • Reviewed and approved the LIHC/PHIP promotional brochure  
• Discussed plans for a Spring 2016 website launch with plans to reveal the Walking Portal in time for National Walking Week which takes place in April  
• Decided upon a name for the walking portal: “Are You Ready Feet?”  
• Discussed developing small business cards as a tool for promoting the portal |

| Workgroup Update | The Academic Partners workgroup met during conference call on **Friday November 13**  
| Academic Partners | During this meeting, members discussed:
| | 1. Student Internship Project: An electronic survey will be sent to LIHC partners to identify existing student opportunities. The purpose of this survey is to identify:
| | a. Clinical Sites  
| | i. Nursing: intern (paid/unpaid), clinical opportunities, volunteer opportunities  
<p>| | ii. MPH: practicum (service learning experience) or Internships (paid/unpaid) |</p>

<tbody>
<tr>
<td>• CLAS/Workforce</td>
<td>The Suffolk Care Collaborative CLAS DSRIP workgroup and LIPHIP are researching train the trainer style programs for Culturally &amp; Linguistically Appropriate Services in hope that we will be able to host a session for our Collaborative members and CBOs throughout Long Island. Post-session, members will be able to bring back a tailored program to incorporate within their respective organizations. We will report again once a model is selected that best meets our needs.</td>
</tr>
<tr>
<td></td>
<td>The LIHC/PHIP continues to communicate and promote any Stanford Chronic Disease Model Program trainings that are being held in the region.</td>
</tr>
<tr>
<td></td>
<td>S. Ravenhall attended the Nassau Queens PPS Cultural Competency Workgroup Meeting on October 30, 2015 to discuss Hot Spotting, Cultural Competency Survey and Community CCHL Strategies.</td>
</tr>
<tr>
<td></td>
<td>M. Corcoran and S. Ravenhall attended a Nassau Queens PPS Hot Spotting meeting on November 12 to discuss the NQP DSRIP plan for cultural competency and health literacy. During this meeting, the team discussed</td>

methodology and potential data sources (3M software to identify PPA/PPV). A follow up meeting is scheduled for November 24, 2015.

- The PHIP staff will continue to work with the various DSRIP workgroups to identify areas where we can provide meaningful collaboration, streamline responsibilities to avoid duplication of work.

The LIPHIP has obtained lists of partners who attested to their regional PPS during the DSRIP process. We have plans to expand, flush out this list and make it available to the public.

**Workgroup Update**

- **Complete Streets/Nutrition & Wellness**

  Work with Complete Streets and Nutrition and Wellness is ongoing. Several partnerships have emerged through our collaboration with the PPSs and in partnership with Complete Streets/Nutrition and Wellness workgroup members:

  - Creating Healthy Schools and Communities Josephine Connolly-Schoonen, Chief, Nutrition Division, Stony Brook Medicine. PHIP staff will be working to support her data needs. Workgroup members from Western Suffolk BOCES and Cornell Cooperative Extension are working in collaboration on this grant.
  
  - Dr. Carlos Vidal, Center for Community Engagement and Leadership Development, Donna Crapanzano, Clinical Assistant Professor, Stony Brook University and a team from Stony Brook Center for Community Engagement and Leadership Development who are working to submit an application for a School Based Health Center in Wyandanch. They are looking for preliminary data sets that will support this application. Michael Corcoran, PHIP Data Analyst has compiled an initial report using PQI, Census and Data from the National Center for Education Statistics.

**Workgroup Update**

The PHIP steering committee met November 17, 2015. Members of the Steering
| **Industry Partners** | Committee will advise Janine Logan, Senior Director, of potential Industry partner connections.
Michele Gervat, Director of Community Health at American Heart Association offered to serve as a resource in engaging those industry partners who she has a pre-existing relationship with. Janine Logan, Senior Director, Communications and Public Health will work conjointly with Michele to personally visit potential partners. |

<tr>
<td><strong>Data Updates</strong></td>
<td>The Wellness Survey &amp; Portal was developed by the LIHC members <em>prior</em> to obtaining PHIP funding through the state. Criteria have been developed to determine which programs are eligible to participate in use of the survey. Pre and Post-program, a representative from the organization will enter data collected from the paper survey into the Portal. This portal was developed by Lisa Benz Scott, Director of Graduate Program in Public Health and Bill Redman, Programmer Analyst at Stony Brook University. Four organizations participated in use of this portal as part of a pilot phase.</td>
</tr>
<tr>
<td><strong>Wellness Portal</strong></td>
<td>Pilot data was downloaded in October 2015. Michael Corcoran, PHIP Data Analyst has been providing analysis of the survey results. His findings reveal statistical significance using T-test analysis with several of the programs. PHIP staff members feel confident that with increased usage of the portal and thus increased data to analyze, we will be able to draw conclusions about the various programs that organizations throughout Long Island are providing to the community. Now that our pilot phase has shown significance in program effectiveness, we are working to recruit and sustain the use of this survey moving forward. The Wellness survey has been translated into Spanish language for members to use.</td>
</tr>
<tr>
<td><strong>Community Health Needs</strong></td>
<td>Local Health Departments, hospitals and LIPHIP will work to engage Community Based</td>

| Assessment Plans                                                                 | Organizations and community members. The LIPHIP will take a leadership role in compiling information and writing assessments for Nassau and Suffolk Counties.  

**Strategy 1:** Collect primary data from community members and CBOs through utilization of existing Prevention Agenda Survey. The community member survey has been finalized in hard copy and Survey Monkey format. Health Departments and Hospitals will distribute this survey with the LIPHIP as a centralized return location.  

**Strategy 2:** Engage CBOs: LIPHIP will plan a Regional CBO Summit event facilitated discussions will be led. This event will take place in February of 2016. Promotion, recruitment and planning are underway. S. Ravenhall has discussed plans with Amy Hammock from Stony Brook University. Details will be available prior to the December. The LIHC members agree that it would be wise to plan several dates/times with morning and afternoon sessions in locations that are convenient to participating organizations. This way, we will engage and capture the voice of a more diverse group of participants.  

**Strategy 3:** Evaluation of Successes with CHIP. Data from Wellness Survey  
- M. Corcoran, Data Analyst will evaluating effectiveness of CHIP programs such as CDC DPP, Stanford CDSMP-DSMP, Stepping on or standalone programs.  

| Partnership with Healthix, Inc. | Janine Logan, Senior Director, Communications and Population Health and Adam Becker, Senior Vice President, Healthix, Inc. have discussed plans to partner and engage in data exchange. As a RHIO, Healthix, Inc. has access to integrated data from select providers in this region through the Health Information Exchange. As logistics of this partnership are coordinated, details will be disseminated to Steering Committee |
| **Mental Health and Wellness Training** | Kim Whitehead, PHIP Communications Specialist provided details on the Mental Health and Wellness CPR training program. With support from the Association for Mental Health and Wellness, the LIHC will host several programs for Collaborative members. In the Mental Health First Aid course, you learn about risk factors and warning signs for mental health and addiction concerns, strategies for how to help someone in both crisis and non-crisis situations, and where to turn for help. |
| **Healthier Long Island Challenge IV** | Western Suffolk BOCES with American Dairy Association and Dairy Council, Cornell Cooperative Extension, Action for Healthy Kids, Creating Healthy Schools and Communities, Sustainable LI and Stony Brook Medicine are sponsoring a Healthier Long Island Challenge: Creating a Culture of Wellness Where We Live, Learn, Work and Play. The target audience is school administrators and educators. They may be an opportunity for the LIHC to attend the event to engage and reach out to CBOs and school officials. This event is taking place December 3, 2015 in Wheatley Heights at Western Suffolk BOCES. Nancy Copperman, Assistant Vice President, Public Health and Community Partnerships, North Shore LIJ, will be speaking about Community-School Wellness Connections: an Innovative Public Health Model during this meeting. |
| **Grant Opportunity** | The Regional Plan Association is looking for proposals for a grant opportunity. Grant proposals were due November 16, 2015 however, Christine Hsu, Senior Executive Administrator, Regional Plan Association, noted there was flexibility in application deadline for those interested. The project is looking for how issues related to mental and physical health play out in low income communities. Funding of between $5,000-13,000 would cover community |
outreach, meeting organization and meeting facilitation. The goals include
- Gaining understanding of social determinants of health and interplay between health and urban planning.
- Knowledge of barriers and opportunities to live healthy lives
- Build relationships between different organizations.

**DSMP Peer Leader Training**

Hudson River Healthcare provided informational folders for any organization interested in running a Stanford Chronic Disease, Chronic Disease Self-Management Program (English or Spanish), and Diabetes Self-Management Program. HRH care will work to coordinate the program and assign peer leaders. The host organization would be responsible for participation recruitment and program promotion. Sarah Ravenhall, Program Manager asked members to reach out to her if they are interested in participating.

**Communications**

- **LIPHIP Newsletter**
- **LIPHIP Member Directory**

Sarah Ravenhall spoke about the LIHC/PHIP Newsletter as an opportunity for organizations to promote their programs, information or events to the collaborative members.

The LIHC/PHIP visual member directory is complete with the first version distributed to all members. The directory will be updated and redistributed every quarter as the collaborative membership continues to expand.

**Adjournment**

The Nassau-Suffolk Hospital Council Holiday Party is scheduled for December 11, 2015 at the Venetian Yacht Club. All committee members are invited to join in Celebration.

The next LIPHIP Meetings are scheduled for:
