Welcome & Introductions | Janine Logan, Nassau-Suffolk Hospital Council/Long Island Health Collaborative, welcomes committee members to the June Long Island Health Collaborative Meeting. All members introduce themselves. 40 members are in attendance.

Announcements | In the interest of member’s packed schedules, we have decided to cancel our August 9th LIHC meeting. However, we will be holding a networking event named, “BusinessLIHC Bingo,” on August 20th.

Upcoming Events | Save the dates! Feedback from past LIHC events have shown that members and other attendees find the opportunity to network is one of the best parts of Collaborative events. The LIHC will be holding, “BusinessLIHC Bingo” on August 20th at Hofstra University and November 8th at the Riverhead Free Library. We will be handing participants bingo cards with spaces for specific social determinants of health and other health factors. Participants will then be encouraged to find a representative from organizations who fit each box. Registration for the event will go out shortly.

Janine contacted The New York Academy of Medicine to present a tailored webinar to our members, on Monday, June 18th from 2 pm – 3 pm, “Public Health Program Evaluation Webinar.” Interested members are encouraged to register even if they cannot attend. Only registered participants will have access to the presentation slides after the webinar is over.
The LIHC will be working with the North Shore Animal League during their “Walk and Wag” event. We will be creating a team called the “Long Island Health Collabradors” and help them promote the event. We invite members to please come and support the event on **Saturday, September 29th in Port Washington**. Bring your dogs!

### CBO Engagement in VBP: An Opportunity to Meet Long Island’s Needs

*presented by Emily Rogan, Project Manager, CBO Planning Grant, Health & Welfare Council of Long Island*

Emily gives an overview of the CBO Planning Grant, which is funded through the New York State Department of Health. The Health and Welfare Council is the lead agency for this grant. The grant project serves as a “support for CBOs in specific targeted areas that remain un-served/underserved as part of the Delivery System Reform Incentive Payment (DSRIP) Program. Also, it serves to assist in planning activities to identify business requirements and formulate strategies for short-term needs and longer-term plans that the CBO consortium may envision in system transformation.

Overall, this will allow them to better position themselves for continuing engagement with Performing Provider Systems (PPS) in DSRIP projects, and consequently, value-based payment and contracting”. If you have any questions on the grant, please contact Emily Rogan at erogan@hwcli.com or 516-505-4434.

### Recap

- Legislative Briefing with Senator Kemp Hannon
- Walk Bike Nassau

Legislators were updated about the activities of the Long Island Health Collaborative at a special legislative briefing held May 24, 2018. Senate Health Committee Chair, Senator Kemp Hannon, had asked for the update to learn of the progress the LIHC has made, since being named the Population Health Improvement Program (PHIP) grantee for the Long Island region in 2014. A similar update took place in 2016.

Through primary and secondary data collection and analyses, the Collaborative is helping its participants navigate the changing healthcare and social service delivery landscape by providing them with hyper-local data reports and trend analyses. The reinforced concept that **All Healthcare is Local** – speaking directly to legislators’ need to know their communities. The Collaborative helps with that from a healthcare and
social determinant/demographic perspective. Each legislator left with a map of the chronic disease PQI rollup incidence rate for their specific districts

[Walk-Bike Nassau](#) was held on June 5th at the Yes We Can Center in Westbury, NY. Several pedestrian and cycling organizations served as vendors and presenters for the event. The event was well-received by community members, especially the bike rodeo and the ‘drunk goggles’ activities.

### NYS Prevention Agenda Update

The Public Health and Health Planning Council will issue its updated 2019 – 2024 Prevention Agenda in December of this year. Planning for the new cycle has been underway for some time and included diverse stakeholder feedback. The five priority areas are very similar to current Prevention Agenda priorities, with some refinement and detail. In this round of the Prevention Agenda, the state is emphasizing healthy aging across the life cycle in each priority area and incorporating a health-across-all-policies approach including upstream, “non-health” interventions and strategies in each priority area. There is an emphasis, on the part of the state, to better understand the community benefit that is reported by hospitals on IRS schedule H. The state is seeking more detail about the dollar amount reported on the community health improvement line on the IRS document. However, categorizing activities to that level of detail will be rather difficult and cumbersome for most hospitals. The state hopes to more easily discern the spending that is associated with Prevention Agenda priorities and is currently developing more guidance about this. The Healthcare Association of New York State has offered a few webinars on the topic. Stay tuned for more information/webinars offered by HANYS and assistance at the local level provided by SHANYS.
### DSRIP Partnership Updates

- **Suffolk Care Collaborative presented by Sofia Gondal, Community Engagement Liaison**
- **Nassau Queens PPS presented by Bryan Valentin, Community Project Coordinator**

Sofia highlighted resources found on SCC’s Community Engagement Webpage ([www.suffolkcare.org/community](http://www.suffolkcare.org/community)). She encouraged members to become more familiar with online tools like HITE, the LIHC calendar, and SCC’s online bulletin board. Sofia also explained the community guide, created by the Cultural Competency/Health Literacy IT subgroup, focused on informing community members on Regional Health Information Organizations (RHIOs). This brochure was created to fulfill a milestone for SCC’s IT Taskforce to develop a handout to educate the community about RHIOs and how to complete the Client Consent Process. SCC seeks to better understand and determine how to support our CBOs as health care increasingly moves toward Value-Based Payment models. There is a survey distributed by SCC to obtain this information. To receive the survey via email or for any questions, please contact Stephanie L. Burke, MS, MHA, CHES, Administrative Manager of Community Engagement at stephanie.burke5@stonybrookmedicine.edu or 631-638-1768. **Survey responses will be accepted until June 30th**

Bryan encouraged interested members to attend the following training hosted by NQP:

- **Motivational Interviewing** - this session will be held on Monday, July 16th at the DeMatteis Center, 101 Northern Blvd, 1st Floor – Conference Room 2, Greenvale, NY 11548 from 9:30 am – 4:30 pm
- **Addressing Social Determinants of Health (Housing)** – this webinar will be held on Wednesday, July 18th from 12 pm – 1:00 pm
- **Health Literacy** – this session will be held on Friday, July 13th at 600 Community Drive, Manhasset, NY 11030, 4th Floor – Training Room from 9:00 am – 12:00 pm
- **Behavioral Health Strategies for Post-Acute Care, Physical assessment, and Sepsis** - this session will be held on Monday, July 23rd at Northwell Health,
145 Community Drive (Conference Room #3), Manhasset, NY 11030 from 8:00 am – 4:00 pm
- Behavioral Health Strategies for Post-Acute Care, Physical assessment, and Sepsis- this session will be held on Wednesday, August 1st at Angello Alumni House at Adelphi University, 154 Cambridge Avenue, Garden City, NY 11530 from 8:30 am – 4:30 pm
- Behavioral Health Strategies for Post-Acute Care, Physical assessment, and Sepsis- this session will be held on Thursday, August 2nd at Northwell Health, 145 Community Drive (Conference Room #3), Manhasset, NY 11030 from 8:30 am – 4:30 pm

For more information on the trainings, please email Bryan at bvalentin@ngpps.org.

Bryan also did a quick overview of the “CBO Innovation Fund.” NQP created this fund with the goal of contracting with 33 Tier 1 CBOs (non-Medicaid billing). Through these contracts, NQP was able to build relationships with community members, gain knowledge of the needs of the communities and organizations that serve them, and explore opportunities to align efforts. They recently held a Tier 1 CBO Conference that was a big success. Also, The NQP Behavioral Health Performance Fund (BH Fund) was created with permission of the executive committee, to allow the NQP PMO to contract directly with community-based behavioral health providers. Utilizing a model based off of the CBO Innovation Fund, NQP engaged with 8 community-based BH providers to take direct action related to seven high-value behavioral health metrics. To learn more about NQP’s projects, view [http://www.ngpps.org](http://www.ngpps.org) for project information, project resources, training portal, news & events, and careers.

state asked that for this assessment to be done collaboratively. The LIHC has a role now in distributing CHNA surveys across Long Island and sharing the results with our members. Alyssa, PHIP data analyst, is currently working on results from completed surveys from January 1st, 2018 to June 1st, 2018. **We will hold a CHNA Prep Work Group meeting on Tuesday, July 10th.**

**Article Spotlight:** *Proportion of Adults Who Identified Walking as a US Surgeon General Priority (Kumar et al., 2018)*  
*Read the research brief here - https://www.cdc.gov/pcd/issues/2018/17_0417.htm*

Almost three years ago, the US Surgeon General initiated a campaign “Step It Up!” to get people walking and moving. The LIHC took the pledge as a supporter of this movement because it so neatly aligned with our own walking initiative. This follow-up study looks at how well or not so well American adults recalled the Surgeon General’s campaign and its call to action - get more physically active via walking. I found it interesting that radio and television were the media channels most often cited by survey respondents as the sources of their knowledge about the campaign. This illustrates the critical role media play in health promotion. After examining media use patterns and demographics, the study goes on to recommend that a targeted social media approach be used for the younger populations whose media/news consumption behavior differs from their older peers. Although this is just one study, this is the sort of research that can be used to support walking as an evidence-based intervention and the use of media as a strategy to promote the evidence-based activity (walking).

**Adjournment**

The next LIHC meeting is scheduled for Wednesday, October 10th at Matrix Corporate Park Conference Room, 1393 Veterans Memorial Highway, Hauppauge, NY 11788. As always, we are incredibly thankful for all our members do to drive LIHC initiatives. Please remember to please email PHIP Community Engagement Assistant, Pascale Fils-Aime (pfilsaime@nshc.org) with your organization’s events so that we may add them to the website and weekly event blast.
In Attendance: Alyssa Bunce, Data Analyst, Nassau-Suffolk Hospital Council; Cara Montesano, Dietitian, Stony Brook Medicine & Creating Healthy Schools and Communities; Carolann Foley, Director of Community Relations, St. Joseph's Hospital; Celina Cabello, Epidemiologist, Nassau County Department of Health; Chris Hendriks, Vice President of Public & External Affairs, Catholic Health Services-Long Island; Christina Woods, Community Health, Good Samaritan Hospital; Connie Cerrato, Assistant Executive Director, SCO Family Services; Dominique Antoine, PHIP Intern, Nassau-Suffolk Hospital Council; Eileen Pillitteri, Program Manager, Maurer Foundation; Esperanza Viera, Community Health, Good Samaritan Hospital; Florella Adams, Board of Directors, Urban League of Long Island; Gail Carlin, Director of Community Relations, South Nassau Communities Hospital; Irene Koundourakis, Outreach Specialist, NuHealth FQHC; Jamila Ferrel, Community Health Intern, St. Catherine of Siena; Janine Logan, Senior Director of Communications and Population Health, Nassau-Suffolk Hospital Council; Jean Hall, Asst. Professor Hygiene Faculty, Farmingdale State College; Jessica Cunningham, Office Coordinator, South Nassau Communities Hospital; Josue Alicea, SBCTCI Recruitment Coordinator, Stony Brook Medicine; Karen Beck, Quality Improvement, Association for Mental Health and Wellness; Karen Cummings, Public Education, LiveOn NY; Kate Zummo, Director, Community Education, South Nassau Communities Hospital; Katia Andrade, Assistant Director, SCO Family Services; Katie Feerick, Program Manager, Nassau-Suffolk Hospital Council, Kelly Devito, Youth Services Specialist, Horizons Counseling; Lawrence Eisenstein, MD, Commissioner, Nassau County Department of Health; Luis Valenzuela, Healthcare Advocate, Health Education Project/1199; Lyndsey Clark, Community and Engagement, Suffolk Care Collaborative; Marilyn Fabbricante, Executive Director of Public and External Affairs, St. Charles Hospital; Mary Ellen McCrossen, Outreach Coordinator, St Catherine of Siena; Mary Emerton, DSRIP Project Manager, CHSLI; Mary Maliszewski, Clinical Director, Brookhaven Memorial Hospital; Michael Hoffman, Coordinator, LI Regional Planning Consortium; Pamela Anderson, Exercise Physiologist, Cohen's Children Medical Center; Pascale Fils-Aime, Community Engagement Assistant, Nassau-Suffolk Hospital Council; Patricia Gilroy, Manager of Community Benefit, Catholic Health Services - Long Island; Sofia Gondal, Community Engagement Liaison, Suffolk Care Collaborative; Susan Vogell, Assistant Professor of Dental Hygiene, Farmingdale State College; Sylvia Silberger, Chairperson, Car-Less Long Island; Tavora Buchman, Director, Quality Improvement, Epidemiology & Research, Nassau County Department of Health; Zahrine Bajwa, Team Coordinator; Cornell Cooperative Extension-Nassau.
