

Hofstra University Master of Public Health Program

Applied Practice Experience

Hours-based Option

- Students select a location where they will work for 150 hours
- Acceptable internship sites include:
 1. Governmental public health agency;
 2. Community-based public health agency or organization;
 3. Health care institutions (working on public health issues)
 4. Academic institutions (working on public health issues)

Portfolio Option

◦ Students will produce specific products that demonstrate competency attainment. They must create at a **minimum of two products** in these practical settings. These products will be presented portfolio style. Examples of the type of products that are appropriate for the applied practice experience are:

- written assignments
- projects
- videos
- multi-media presentations
- spreadsheets
- websites
- posters
